

*When I first saw the projects, built by Dekra Company, I immediately appreciated the international qualitative level of their realization; that is why by searching the contractor by "VTB Arena" construction, the choice was clear. Today speaking about Dekra high quality of works, I rely on the personal experience.*

**Claudio De Eker**  
KODEST company owner

*Z-Towers a grandiose project, not simply a concrete high scraper, but a real city in the city. Dekra, as always, has worked professionally and reliably, the building has a high supply of durability, the facade of the two round glazed towers is unique. It is my fourth skyscraper in the world, but the most significant, as it is the highest building in the today's Baltic States and my footprint in the country history.*

**Mihail Gelman**  
General Director  
TOWERS CONSTRUCTION MANAGEMENT board member

*Residential complex Skolkovo – park for life, project needed a scrupulous work, as from the part of the designers, as well as from the part of the contractual companies. In the first place, it has to do with the complicated geometry of the Complex, not accepting faults, with a vertical layout on the active relief, with the demands to the materials on "premium" class project. Dekra performed the building realization with the minimal changes concerning the project stage – as in case of the management of the construction firms, as well as of the control on the works performance.*

**Vladimir Plotkin**  
The Chief Architect of Trade and Industry association "REZERV"

*For the realization of the unique in its concept premium class club block project "Skolkovo Park for life", we needed a partner able to solve the complicated engineering and architectural tasks on the qualitative high level and on time. DEKRA Company fully met the expectations and demonstrated itself as a reliable and stable partner.*

**Igor Pyatibratov**  
Head of Development Real Estate Department  
MILLHOUSE

*Construction is not our company's profile field, that is why it was extremely important to find professionals, whom you can absolutely trust. Golden Gate project – showed that Dekra was the best choice. It is not just because of the quality, stability and the deadlines. Their individual "tweezer" approach to the customers interests, taking into account even the micro details let us exactly fulfill the idea of business construction XXI in our life.*

**Andrey Vdovin**  
Head of Asia-Pacific Bank

*Dekra was one of the Russian companies, realizing such a large-scale project in the sphere of high-rise construction in Latvia. SOLARIS already operating more than 10 years, and demand for housing, already on the secondary market, is still high. My apartment is also located in one of the towers: love reliability and comfort.*

**Andris Silis**  
Chief Architect Project Solaris

*Reviving an old house, we tried to reflect the modern and carefully preserve the historic Moscow. Architects and designers designed by 100 years old Moscow motives, moldings and facades. The construction workers restored the original staircase in the walls masonry in the hall. The old lamps, located on the floors and once belonging to Paris City Hall, were once found on one of France flea market by Dekra General Director Denisov S.A. Such a personal quivering attitude of every participating person, allowed to ideally fulfill the project.*

**Ekaterina Grigorieva**  
Chief Architect PROJECT-E Company

*The work in the historic center of Moscow demands from an architect, developer and contractor not only a high professionalism but also sensitivity, a sincere love for the city. Pozharsky 13 – a worthy project located in the so-called “golden mile” in Moscow, performed by DEKRA Company, by the plan of the architectural agency “Ostozhenka” with a careful attitude for the project and the city.*

**Alexander Skokan**  
Chief Architect  
Chief of Moscow architectural buro “Ostozhenka”

*Original historic architecture of Italy found its reflection in PIAZA INFITEATRO project: in the form and in the name. Cooperation with DEKRA allowed us fully brings into reality the creative plan, performed qualitatively and on time. This project is our common goal not only in the international competition International Property Europe (London 2012) but also in life.*

**Sergey Romanov**  
Head of the workshop №1  
OPEN SOCIETY MOSPROEKT 4

*Tower 2000 is the first office skyscraper of the business center MOSCOW CITY, where we invited DEKRA CONSTRUCTION for the high quality finishing works and interiors arrangement performance. From this moment on, there started our long-term cooperation with that company, as for us not only the quality of work is important but also the delivery dates. DEKRA always works clearly and professionally.*

**Alexander Zanadvorov**  
Owner of supermarket chain “Seventh Continent”

*We thank joint stock Company “DEKRA CONSTRUCTION” team for the participation in the project arranging cable lines on the site “Multifunctional Residential complex Red Side”. Assembly-montage works complex was performed with a high quality in the record short time. A high level of production process organization with an unconditional adherence to the safety and labor protection deserves special mention. Also efficiency and technically correct attitude toward work of your specialists during the whole period of our cooperation.*

**Andrey Kozlov**  
General Director  
Open Society 7th Taksomotorniy park

*During the works performance “DEKRA CONSTRUCTION” has proven to be a reliable and professional partner, meeting all the Contract obligations with the optimal result in the record short time. Taking into account DEKRA CONSTRUCTION long experience as a General contractor by different projects construction in Russia and abroad and also the exact experience of cooperation in the terms of the project “SNEGIRI ECO”, we recommend that professionals team as a proved partner, in cooperation with whom the fundamental elements are the quality, professionalism and stability.*

**Konstantin Naidenov**  
Construction Director CT Investments Limited
